Dear Amy MacMahon MP,

Dear the Community Support and Services Committee, cc my local MP -

I'd like to comment on both the Housing Legislation Amendment Bill 2021 and the Residential Tenancies and Rooming Accommodation (Tenants' Rights) and Other Legislation Amendment Bill 2021.

I'd also like to take this opportunity to share something with you: a snapshot of what it's like to rent in Queensland.

I've been a renter since moving out of home at 17. I've lived in houses with such destroyed floors that we had to cut grass growing into our kitchens and bathrooms. Houses that regularly flooded in summer storms, houses that are covered in mould, houses that have doors and windows unable to be shut. It's understandable that as buildings age, the needs for their maintenance increase. What is not understandable, is the overwhelming contempt in which landlords respond to our pleas for liveable housing.

One landlord, after I requested that some floorboards were replaced as they were rotting & dropping rusty nails, simply stated that "you don't need to walk there". Never mind that we pay hundreds of dollars a week to live there, we shouldn't have the threat of falling through our floors.

Another landlord, after we requested the house have some repairs to the outer doors & windows to ensure they would shut properly in the lead up to winter, threatened us with being kicked out or having the rent drastically increased. Apparently \$600 a week in rent is not enough to buy warmth in winter.

In its current form, the Housing Legislation Amendment Bill 2021 will do little to improve my situation as one of the 1.8 million renters in Queensland. While this bill may be palatable to the real estate lobby, it completely disregards my experience as a renter.

While I'm pleased that the Housing Legislation Amendment Bill includes positive provisions for renters experiencing domestic and family violence, it contains little other reforms of substance for renters.

I urge the Queensland Government to take this opportunity to amend this bill and to implement real rental reforms that will make renting in Queensland affordable, secure and fair.

It's crucial that rental reforms in Queensland include:

- A genuine end to 'no grounds' evictions – providing tenants with long-term security in their homes without the risk of an unfair eviction at the end of their lease
- Allowing tenants to make minor modifications, like hanging picture frames or installing furniture safety anchors
- A real ban on rent bidding – banning agents and property owners from accepting amount above the advertised rent for a property
- Expanding minimum standards to include ventilation, cleanliness and insulation
- Stopping unreasonable rent increases by tying rent increases to general inflation (CPI)
- Ensuring prospective tenants have fair and honest information about the property

- Banning inappropriate or discriminatory questions by lessors
- Make it easier for tenants to have pets – by flipping the onus on property owners/agents to demonstrate why it's unreasonable for a tenant to have pet

These provisions are included in the Residential Tenancies and Rooming Accommodation (Tenants' Rights) and Other Legislation Amendment Bill 2021. I urge the government to either support the Tenants' Rights Bill, or amend its own bill to provide real protections for renters.

Yours sincerely,
