Dear Daniel Purdie MP,

Dear the Community Support and Services Committee, cc my local MP -

I'd like to comment on both the Housing Legislation Amendment Bill 2021 and the Residential Tenancies and Rooming Accommodation (Tenants' Rights) and Other Legislation Amendment Bill 2021.

I'd also like to take this opportunity to share something with you: a snapshot of what it's like to rent in Queensland.

:: As a renter and a single parent, I have NOT had stable housing for at least a year since last May. I noticed around that time that there were more and more people at the inspections. As well as being a single parent, I am studying 2 x courses at one time to try to work toward an abundant future for me son and I)...as I am on Centrelink in order to complete my studies, the current cost of rental accomodation is way passed my maximum possible amount. The house I have been living in since July last year, has been "week to week" with the owner telling me around 6 months ago that the house may be sold. This has been hanging over my head as I know that when it is sold, we will be on friends couches again (as we were early last year during and after the big lockdown).

The owner has just told me two weeks ago that the house will be sold very soon. I will have six weeks to find somewhere affordable to live for my son and I. I truly fear that this current HOUSING EMERGENCY will mean that my son, [REDACTED] and I will go without a stable roof over our heads, yet again.

In its current form, the Housing Legislation Amendment Bill 2021 will do little to improve my situation as one of the 1.8 million renters in Queensland. While this bill may be palatable to the real estate lobby, it completely disregards my experience as a renter.

While I'm pleased that the Housing Legislation Amendment Bill includes positive provisions for renters experiencing domestic and family violence, it contains little other reforms of substance for renters.

I urge the Queensland Government to take this opportunity to amend this bill and to implement real rental reforms that will make renting in Queensland affordable, secure and fair.

It's crucial that rental reforms in Queensland include:

- A genuine end to 'no grounds' evictions – providing tenants with long-term security in their homes without the risk of an unfair eviction at the end of their lease
- Allowing tenants to make minor modifications, like hanging picture frames or installing furniture safety anchors
- A real ban on rent bidding – banning agents and property owners from accepting amount above the advertised rent for a property
- Expanding minimum standards to include ventilation, cleanliness and insulation
- Stopping unreasonable rent increases by tying rent increases to general inflation (CPI)
- Ensuring prospective tenants have fair and honest information about the property
- Banning inappropriate or discriminatory questions by lessors
- Make it easier for tenants to have pets – by flipping the onus on property owners/agents to demonstrate why it's unreasonable for a tenant to have pet

These provisions are included in the Residential Tenancies and Rooming Accommodation (Tenants' Rights) and Other Legislation Amendment Bill 2021. I urge the government to either support the Tenants' Rights Bill, or amend its own bill to provide real protections for renters.

Yours sincerely,
