Dear Amy MacMahon MP,

Dear the Community Support and Services Committee, cc my local MP -

I'd like to comment on both the Housing Legislation Amendment Bill 2021 and the Residential Tenancies and Rooming Accommodation (Tenants' Rights) and Other Legislation Amendment Bill 2021.

I'd also like to take this opportunity to share something with you: a snapshot of what it's like to rent in Queensland.

I have had rents constantly raised for no reason. I have had real estate agents refuse to offer contracts longer than six months, in order to keep raising the rent to "reflect the market".

At a house I lived in Windsor Qld, I kept getting electric shocks from the outdoor tap when I would water the garden. We contacted the real estate agents multiple times and brought it up at rental inspections. After several months, they eventually sent around an electrician. The electrician determined that there was a major electrical fault with the house. Essentially the wooden, over 100 year old workers cottage was not earthed. The electrician was so concerned for our safety that he told us not to run the air conditioning or any large appliances until he could return the next day with the parts he needed to fix the issue. In his words, the place could go up like a tinderbox. Underneath the house also used to flood every time it rained. Up to one metre deep. It never fully dried and we had a huge mosquito problem. Nothing was ever done about that. When we eventually moved out, they put the rent up by \$20 a week.

In its current form, the Housing Legislation Amendment Bill 2021 will do little to improve my situation as one of the 1.8 million renters in Queensland. While this bill may be palatable to the real estate lobby, it completely disregards my experience as a renter.

While I'm pleased that the Housing Legislation Amendment Bill includes positive provisions for renters experiencing domestic and family violence, it contains little other reforms of substance for renters.

I urge the Queensland Government to take this opportunity to amend this bill and to implement real rental reforms that will make renting in Queensland affordable, secure and fair.

It's crucial that rental reforms in Queensland include:

- A genuine end to 'no grounds' evictions – providing tenants with long-term security in their homes without the risk of an unfair eviction at the end of their lease
- Allowing tenants to make minor modifications, like hanging picture frames or installing furniture safety anchors
- A real ban on rent bidding – banning agents and property owners from accepting amount above the advertised rent for a property
- Expanding minimum standards to include ventilation, cleanliness and insulation
- Stopping unreasonable rent increases by tying rent increases to general inflation (CPI)
- Ensuring prospective tenants have fair and honest information about the property
- Banning inappropriate or discriminatory questions by lessors
- Make it easier for tenants to have pets – by flipping the onus on property owners/agents to demonstrate why it's unreasonable for a tenant to have pet

These provisions are included in the Residential Tenancies and Rooming Accommodation (Tenants' Rights) and Other Legislation Amendment Bill 2021. I urge the government to either support the Tenants' Rights Bill, or amend its own bill to provide real protections for renters.

Yours sincerely,
