My name is [REDACTED], I live at [REDACTED]. Please keep my name confidential and it can be shared (so my story can be shared). There is a problem with the temperature of the food that comes from the kitchen. It's meant to be hot, but it's lukewarm, so I bought a microwave and I guess that was against policy. So I'm wondering what I can do? And how can we improve the food temperature from the kitchen. I would appreciate as much help as I can to get it part of NDIS. Thank you.
