PUBLIC HEALTH AND OTHER LEGISLATION (EXTENSION OF EXPIRING PROVISIONS) AMENDMENT BILL
2022

I strongly disagree with the above bill and implore the Committee to reject the bill.

As stated on the Queensland Government website;

“During a public health emergency, the Chief Health Officer can issue Public Health Directions to assist in containing, or to respond to, the spread of COVID-19 within the community.”

I believe that this is no longer a public health emergency as the virus has been allowed to spread throughout the community and as the CHO states has reached its peak and is now in decline.

The government can no longer deny the mounting evidence that COVID-19 is no more than another influenza virus. Across the world many countries are abolishing all COVID-19 mandates and restrictions and returning to pre-COVID-19 life. The number of doctors and scientists that are speaking out against COVID-19 vaccinations, restrictions and mandates are growing by the day. If you are unaware of the Freedom Movement that is sweeping across the world, then I urge you to do some research not via Google.

The vast majority of Australians are wanting to return to normality, yet the government is still imposing restrictions and mandates that serve no purpose but to take away our god given liberties and freedoms. It is an abhorrent absurdity that the Queensland government is allowing one man, the Chief Health Officer, to dictate how we live our everyday lives. No one man should have the power to control another man, let alone the masses.

I beg you to oppose the extension of Queensland’s declared public health emergency for COVID-19 and allow for the Chief Health Officers powers to lapse at 11.59pm on Saturday 26 March 2022.

Thank you
Kind Regards

Roseanna Kerle-Strong
