Community Support and Services Committee

Dear Secretary

I wish to request that the committee vote against extending the current emergency Powers.

It is clear that the Pandemic is over.

Omicron has proved to be no more lethal than the annual flu, in fact far less so, as it attacks only the upper respiratory system.

Today's Australian Government statistics are in the screen shot below.

My calculator tells me Queensland has a death rate of 0.13887 %

So there is a 99.86 % survival rate.

To pretend that this is a public health emergency insults the intelligence of the general public.

All Covid measures should cease immediately, including all vaccinations, in particular the program for children

Kind Regards

Helen Stewart
