Hello

I would like to make a submission in regards to: public health and other legislation (extension of expiring provisions) amendment bill.

This emergency power has destroyed this great state and has done so much more damage than the claimed pandemic has.

These powers need to end as lots of countries have done. There is no emergency in Queensland and this legislation is not required.

Allowing the chief health officer to make directions according to his/her reasonable belief has turned Queensland from a democracy into a dictatorship and this must end.
