Subject: Stop the Extension of the emergency act.
Date: Tuesday, 1 March 2022 9:13:47 AM

To Whom it may concern,

Speaking on behalf of my family we urge the Government to allow Queensland to return to normal living.

The National target for Vaccines was 80 percent and Queenslanders have exceeded this nationally accepted target to get above 90 percent. And we now know that since opening the borders it is no longer an effective control to stop the spread of Covid 19. The objective was to curb the hospitalizations and take pressure off our health systems.

Since opening our borders we have proven this has been achieved.

We have also seen businesses suffer, young teenagers lose their part time jobs which affects tourism. Confusion on rules. Lives lost to missing out on surgery and businesses lost. Suicides skyrocket.

We need to get back to a commonsense approach and let people and businesses make their own decisions to manage Covid19.

The Qld government need to start building our economy back up and let health professionals concentrate on medical issues.

The only way to achieve this is if they end the emergency act and all unnecessary Mandates that are just causing stress in our community with division and segregation. Let now become one State again and move forward.

A good government listens to their people. Please be the government people except you to be. Remember why you became politicians.

Yours respectfully

Cassandra Zorzan
