Good morning I'm writing to give you my opinion on why you should drop your public health and other amendments before your upcoming extension.

Your so called pandemic is over it has ended in a heap of countries overseas please tell me why you should be able to continue the fear campaign for another 6 months.

You and I both know these vaccines are not safe the hospitals and ambulances can't keep up with vaccine injuries .

Funeral homes are flat out because people young and old are dropping dead for no reason perfectly healthy I know of many people and the more people I talk to they know people who have suffered or died because of your experimental jabs.

Car accidents have gone through the roof with people having reactions behind the wheel.

This is all crimes against humanity and it needs to stop the people have had enough of all of this BS.

Not much more needs to be said besides tell the world economic forum that Australia says no tell the New world order Australia says no.

What makes the elites think they can rule the world we all deserve to live a happy healthy life.
