To Whom it May Concern,

I am writing to ask that you do not extend the the emergency bill. The additional powers given to emergency officers and specifically, the Chief Health Officer, is not beneficial to society any longer. Covid is here to stay, it is not the emergency it was when we first began dealing with it and with the vaccination rates as high as they are across the nation, it is time for us to drop all mandates and restrictions and simply move on with life. Extending the emergency bill does not help the country and should be opposed. Countries all over the world are revoking restrictions and bringing an end to the discrimination, fear and control associated with these emergency acts. Australia needs to do the same.

Yours Sincerely,
