To whom it may concern.

[REDACTED] Suggesting that we need an extension on restrictions and or mandates is appalling. The mandates are a push over tactic and clearly the procedures the government and its ministers are forcing Queenslanders to adhere to are starting to affect the mental health of some, they are destructing small to medium size businesses, it's affecting the economy and finally the deprivation of liberty of Queenslanders. I refer to section 362 E of the public health act 2005- this is no health argument anymore, it's political, it's set to gain wealth to a certain few and most politicians and ministers are benefiting financially out of this mess. Enough is enough and this all needs to stop!

I do not expect a reply to this email, I expect it to be filed into some sort of rubbish bin. There would be no doubt someone on some sort of kicker to make sure any email with truth or substance goes conveniently missing!

Kind Regards, Tim Durre.
