Subject: Extension of Qld SOE
Date: Monday, 28 February 2022 7:18:28 PM

I write as a member of the public to request the application for extension of QLD State or Emergency Powers regarding the COVID 19 pandemic immediately cease and not extended beyond the current April 2022 timeframe.

It's time to concentrate on rebuilding our economy and become an inclusive State again after 2 years of fear, hypocrisy and untested theories that have little scientific basis. The fact that only double vaccinated SES volunteers can assist in our current flood crisis just highlights how ridiculous and unfounded the current mandates are and the Health ministers, CHO and other ministers having too much power and control over the people in the State.

Are we not now learning to live with COVID19? Most healthy people without comorbidities are surviving the current "Omicron variant" without much medical intervention, let alone hospitalisation. Isn't it time the Qld Government came clean about their gross mismanagement of funds towards healthcare, aged care, paramedics and now, as weather events take over our focus, volunteer agencies and support networks.

Please do not support this proposed bill, legislation, and current health minister to extend this unnecessary extension.
