Subject: Submission against State of emergency powers by governments.
Date: Tuesday, 1 March 2022 1:08:01 PM

To whom it may concern,

I would like to put in a submission to vote against the extension of State of Emergency powers that the government currently are applying for. Please let Australian's get back to their life's. Masks don't work except in causing increased risk of bacterial infections, and hypoxia. Vaccines may or may not work but should never be mandatory. The government is losing much public respect from their people who they should be caring for (not controlling or dictating what is best for an individual's health and not taking away from Australia's economy by mandating no job due to health procedures).

Yours kindly,

David Hartog
