## PUBLIC HEALTH AND OTHER LEGISLATION (EXTENSION OF EXPIRING PROVISIONS) AMENDMENT BILL 2022

Please be advised that as Queensland resident who has been adversely impacted by mandates that have held power due to emergency state - they must not continue. Please consider the implications of granting such a long extension that is not necessary. People should be free to chose. No cohesion or mandates should exist is a free country. You must consider the people who voted you into the position of power and use it wisely. You can't just extend - and don't treat people as stupid. My MP office told me you need the power to ease restrictions - can you please advise of this is accurate? I would hate to think I was lied to.

Do not extend.
