Dear Sir/Madam,

I am writing to express my dismay at the Queensland government's plan to extend the CHO Emergency Covid powers to October 31 and ask "where is the emergency"? For there is none and we do NOT want these powers extended at all!

Now that we have the official data from the Australian Bureau of Statistics which shows that between March 2020 and Jan 31 2022, 92% of the 2639 deaths attributed to Covid had underlying health conditions such as chronic heart disease, pneumonia and kidney infection.

During the same period, 100,000 Australians died from cancer, 32,000 from heart disease and 30,000 from Alzheimer's and dementia.

Covid's deaths made up just 1% of ALL Fatalities across the country with just 83 people dying OF Covid!

The fear campaign needs to stop! With over 90% tax rate, low case and hospitalisation numbers all mandates need to be stopped including the no job no pay and allow people to get on with their lives..

Many countries around the world have already dropped these discriminatory mandates and are learning to live with covid as we in Queensland need to do....

Yours sincerely,
Marie Kelly
