Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022

Dear Representatives

I write to confirm my total opposition to any extension of expiring provisions. I believe our State has already used the unprecedented COVID 19 worldwide Fear propaganda factor to introduce controls that limit our individual freedoms.

I have chosen not to take the available vaccines, with outcomes which are increasingly confirming that they are unsafe and are ineffective in controlling the virus. They do not stop infection – I have double vaxxed children who have caught the virus – and passed it on. We hear about a booster and possibly a 4th shot (didn't help Israel) possibly ongoing. – it wont stop you dying – it may stop you getting too sick – the real TRUTH – they don't bloody know – it's rather a massive worldwide health trial.

I felt obligated to take the same decision for my handicapped 56 year old son. His outgoing activities have been seriously curtailed – mine less so – by your disrespectful treatment of those who choose not to take the available vaccines – a right which I believe you do not have – a ruling which has no realistic health basis in that vaccinated / unvaccinated can be infected, transfer infection and die from the virus. There's are lot written about about potential long term effects of the vaccines which may yet find some credible support in the staggering increase in US deaths – not Covid related – versus pre-pandemic.

I respectfully suggest you read Robert F Kennedy Jr's Book: "The Real Anthony Fauci – Big Pharmas and the Global War on Democracy and Public Health" – it's a shocker from Page 1. Then there's the International Criminal Court challenge by a formidable group of Professionals led bt Reimer Fuellmich – German Attorney – "crimes against humanity" in relation to the vaccines / withholding of early on alternative treatments - seemingly noting Big Pharma, Bill Gates, Faucu etc.

I do not condone the extension of provisions – I believe the impositions imposed to date were excessive – I believe the treatment of the unvaccinated is more about "stifling DISSENT against the propaganda narrative."

Thank you for your consideration

Regards

Bill Webster
