**Subject:** End of emergency powers  
**Date:** Tuesday, 1 March 2022 7:16:36 PM

---

Good evening,

Thank you for the opportunity to provide a submission for the extension of the state emergency powers.

I believe the extension of powers is something that is completely out of date. Covid has been classed as nothing but the flu, vaccines have been proven to be harmful to more than predicted and the masks are just dangerous to our health.

Our country has done what the Premier wanted. We stayed at home, we vaccinated, we tested and we isolated. Please let us return to some sort of normal life.

Australian small business is suffering and we have lost many of these businesses already, extending the powers will be the nail in the coffin.

Please help save Australia. We need you to stop the powers and save our jobs, businesses and families.

Thank you for your time and I look forward to telling my children they can work again, that mum can go to work again.

Kind regards  
Connie Oosterbeek
