To Committee Secretary,

Dear Madame/Sir.

1. I "Oppose" this bill to be Extended.
2. Families are Struggling, children's schooling, athletics, activities, are severely affected at present. I am very concerned for our young folk.
3. We have seen our economy smashed, small businesses decimated, hundreds of thousands of jobs lost and people's lives turned upside down.
4. All sacrificed on the altar of "public safety" – along with free speech, the right to peaceful assembly, the right to work, freedom of conscience, bodily autonomy, government transparency and public trust in our institutions.
5. Suicide rates have escalated, especially our youths.

In closing, an END to state of Emergency Bill pertaining to COVID-19 is imperative for We the PEOPLE and our Beautiful Sunny Qld , & Country.

Sincerely, Susan Bradshaw.
