Subject: Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022 into the Queensland Parliament
Date: Wednesday, 2 March 2022 11:07:44 AM

To whom it may concern,

I, [REDACTED] am ABSOLUTELY NOT in favor of and DO NOT SUPPORT the extension of expiring provisions - Amendment Bill 2022.

In my opinion, I believe the extension of the Bill is not NEEDED OR REQUIRED. There is NO evidence to support a medical emergency based on the data available on the TGA site.

"On 22 February 2022, the Minister for Health and Ambulance Services introduced the Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022 into the Queensland Parliament. The Bill was referred to the Community Support and Services Committee for detailed consideration."

I do however exhort the Minister to direct the necessary investment, energy, and resources into the evidence-based investigation of vaccine injuries, efficacy of the vaccines and seeking expert advice on successful alternative protocols. It is the responsibility of the Minister to be cognisant of the sovereignty of the people she is representing. We, the people of Queensland are quite capable of making informed decisions that concern our safety and the safety of our families and the community.

A very concerned citizen,
[REDACTED]
