Subject: DO NOT want an Extension to Emergency Bill
Date: Wednesday, 2 March 2022 11:53:00 AM

Good morning,

I really hope to find you physically well as I question the state of thinking behind the current appraisal to continue/extend Emergency Bill (until 31st October 2022).

You are continually shifting the goalposts.

We were told that Queenslanders would be safe if fully Vaccinated. The focus was on the unvaccinated, then the unboosted. Now we have been told a fourth shot may be required by the end of the year.

As you have already achieved destroying our state and people's ability to work and provide for families causing unnecessary financial hardship, family and social breakdowns, segregation, isolation along with mental health! Mandates should never have been introduced.

I point out that every death, whether Covid related or not, is tragic however the latest Australian Bureau of Statistics information released last week put it in perspective. Over the 22 months of Covid 273,901 Australians died; however of these deaths only 2,639 people were covid related with 92 percent of these having three serious underlying conditions.

You have created a much larger "pandemic" than COVID-19 with your over reach of power, bullying and fear tactics.

Your vaccine has been for 5 variants ago with little to no protection to Omicron in fact Pfizer's chief executive has revealed that the two doses of its current Covid-19 vaccine offer "very limited protection, if any against Omicron variant" which also has been confirmed as no worse to influenza.

What grounds and evidence do you have to back this bill?

As on many occasions it has been stated and verified that your "vaccine only" venues and in fact people are at higher risk of transmitting this as they may not even be aware, you have the state at high double dose well so you state so when does herd immunity occur? Perhaps re-look at your so called modelling!

As you are lifting the restrictions and giving false pretence you are maintaining mandates and looking to extend the bill, you are so far out of touch!

Throughout the so called "pandemic" that is so contagious and requires face mask where are bio bins to dispose of these in a safe and responsible manner?

Front line workers ie EQ staff whom happily worked through the pandemic without a second thought, now have lost their jobs to your mandates and on what grounds?

The pain and suffering you have caused with fear tactics is horrendous and I really hope you re-think and get off your high horse to see the suffering and pain you are continuing pursue.

Hope you have a nice day as many qlder's aren't nor are they ok!

Sincerely
