To whom it may concern

I hereby state that I do not want an extension to the emergency bill until October 31st 2022. I am a secondary school educator that has been suspended from my job due to the mandates. I want to return to work and reestablish my commitment to educating the future of our country.

It has been brought to the attention of the public via ABS data that over 90% of people who have died due to Covid 19 had underlying health conditions and that the median age for these deaths was 81. The life expectancy of Australians is 78.

Hospitalisations and deaths are at their lowest since the pandemic started. I request that the mandates be dropped so that Australians can return to normal life as it was before the pandemic started.

I can be contacted on the above email or via phone on [REDACTED].

Kind regards

Benjamin Herrald
