re:- Public Health and Other Legislation (Extension of Expiring Provisions)
Amendment Bill 2022

To whom it may Concern.

I am totally against extending the above mentioned Bill.

Since its introduction we have seen the economy smashed, small business decimated, hundreds of thousands of jobs lost and peoples lives turned upside down.

All sacrificed on the alter of "public safety"- along with free speech, the rite to peaceful assembly, the rite to work, freedom of conscience, bodily autonomy, government transparency and public trust in our institutions.

Even worse there has been a fundamental change in our relationship with each other, a change clouded in suspicion and mistrust.

This madness must end now!
