

3rd March, 2022. **Submission to:**
Committee Secretary,
Community Support and Services Committee
Parliament House
George St,
Brisbane. Qld. 4000

**Re: Extension of expiring provisions Amendment Bill 2022
Corrective Services Act 2006, Disaster Management act2003,and Mental Health Act
2016. To support public health response 30th April, 2022**

I submit that the Committee **does not renew this extension** provisions Bill 2022.

1. Covid 19 is no longer an emergency . There was never a virus isolated.
2. This act has allowed our elected state leaders take information from a few public Health Officers in order take control of all health and living experiences of all residents in Queensland.
3. Conventional medicine is considered by the Medical Associations as the ONLY way to treat illness.
4. There also exist natural health options that are not approved by the Pharmaceutically controlled medical associations.
5. Many residents of Queensland choose to be responsible for their own health. They personally research, and are often formally trained (I am a 4 year Trained RN who has continued learning in the Homeopathic and Natural healing methods). What about all the Acupuncturists, Cranio Sacral, Bioressonance, Homeopathic, Naturopathic trained healers ? Who I might add have been prevented from working with their clients as they also choose not to be vaccinated.
6. Why is a decision made by only one aspect of health (Illness). Why were not all various forms of medicine and health options representatives used as a committee to have debate and discussion to suggest ways to deal with this “Pandemic”.
7. I guess because this whole “Pandemic “ was not about health and safety, it is about power and control. It has created a tyrannical government that is not interested in representing its’ people, just controlling them.
8. Please release the Doctors and Nurses of the medical control so they can personally assess the the need of their individual patients instead of the State controlled propaganda.
9. Many do not trust our Government and their advisors. Especially when they were forced by mandates to be vaccinated to hold their jobs. Now that many see the adverse affects on themselves and their friends and families you wonder why they are not choosing boosters?
10. We claim the right to “Freedom Of Choice”. Stop the mandates by ceasing this extension.

Please cease further extensions of “emergency provisions Bill”.

Thankyou,
Cheryl Kemp,
