Subject: NO EXTENSION to the Emergency Bill
Date: Wednesday, 2 March 2022 2:41:17 PM

Good afternoon,

I do not want the Emergency Bill to be extended. We are currently at the end of the pandemic that necessitated it in the first place, and the powers are no longer required.

My reasons are:

- The latest variant of the COVID-19 virus is less lethal than the yearly influenza
- Over 90% of Queenslanders are vaccinated
- Mandates are being lifted all over the world
- Queensland is still suffering economically while these remain in place
- The true death toll from COVID-19 across Australia since the pandemic began (and not based on comorbidities or dying WITH COVID-19) is 83.

Please note this as my personal vote for NO EXTENSION to the Emergency Bill.

Yours sincerely,

Jacqueline Rose
