Good Afternoon

Sharon Haddock of  

I am writing to request you do NOT extend the emergency bill beyond its date as I write this email. As the virus is proved to be less deadly than first thought, and practically all the people have been vaccinated against it, I see no reason to extend the emergency bill, unless of course it's all about the money and not people's health. It's obviously over. End it.  
Kind regards  
Sharon
