Subject: Say no to the extension of emergency.

To whom it may concern,

Two years ago there was an evident state of emergency issued, there was a new virus that no one could contain. However, so much work has been done (albeit just instilling fear in to the heart of every person...) that there is absolutely no longer a state of emergency. The uproar that would happen if the 'state of emergency' were to be extended, and the segregation of human beings continued, would be enormous. I pray that the blinkers of money before people, would fall from your eyes, and a free state of Queensland would emerge again. Say no to any extension of draconian law in Queensland and set the people free. Free to work, and move, and contribute to society which has fallen apart at the seams...

Thank you.
