re:- Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022

To whom it may Concern,

I am totally against extending the above mentioned Bill.

Since it's introduction we have seen our economy smashed, small businesses decimated, hundreds of thousands of jobs lost and peoples lives turned upside down.

All sacrificed on the alter of "public safety"- along with free speech, the right to peaceful assembly, the right to work, freedom of conscience, bodily autonomy, government transparency and public trust in our institutions.

Even worse there has been a fundamental change in our relationship with each other, a change clouded in suspicion and mistrust.

This madness must end now!

I respectfully request that you consider the future impact on the people if this bill is extended.

Sincerely  
Val Somerville  
A Concerned Citizen
