Subject: Emergency Bill - No Extension
Date: Wednesday, 2 March 2022 4:45:32 PM

Dear Sir/Madam,

I (and my immediate family) do not want an extension to the Emergency Bill.

There are many reasons why we don't want an extension to the bill, here are the main reasons:

- I was not authorised to visit my dying brother in hospital due to the mandates.
- The mandates have caused segregation in society.
- The Covid pandemic & data has been exaggerated by the Government and MainStream Media.
- There is clear proof that mandating vaccines and masks did not and does not stop the spread of Covid.
- There are many more people dying from various other diseases (and floods) than are dying from Covid-19.
- The mandates are destroying small & medium businesses across Australia.

Yours Sincerely,
Daniel Sheehan
