Subject: Submission for extension. Of emergency powers.
Date: Wednesday, 2 March 2022 5:04:39 PM

I write to this committee to reconsider allowing Queensland's Labor Party additional emergency powers.

During the two plus years we have been under emergency powers. What review into the effectiveness of these extensions have been carried out by an independent body not influenced by the government?

What is the justification for an extension as the Covid restrictions are ending in Queensland, why then should government continue to hold onto emergency powers when there is no longer any emergencies.

If there is a need for emergency powers then make it a monthly review and ask the government tangible and measurable reasons why they need this control over the population.

Kind regards

Amy Biggs
