I am writing as a deeply concerned citizen of the state of Qld with regard to the extension of the state of emergency powers and or the changing of any of those said powers to remove further freedoms of the people of this state.

We have endured an overreach of powers for the last 2 years on the false premise of some dangerous virus.

This has proved to be a false basis as the figures now coming out as to how many actually died from So called covid do not support the fear, the curtailment of activity and the loss of businesses etc.

These powers need to be removed and people need to be free to live life as we used to in days long gone.

We also need to know that such powers are not returned as businesses cannot thrive under such a cloud of fear of what might happen.

Please cease these powers ASAP and let Qld thrive.
