Dear Committee,

I am against the extension of the Public Health and Other Legislation Bill. Queenslanders have lived under a state of emergency for long enough!

It has ruined so many businesses and the relationships of people that I sincerely fail to see that an extension will be of any benefit whatsoever.

Covid 19 is everywhere, and the vaccines and other health measures certainly are not stopping it from spreading like wild fire at the moment. This disease is proving to be no worse for most people than a flu, and we all need to learn to live with this kind of sickness again.

We have seen our economy smashed, hundreds of thousands of jobs lost, and people's lives turned upside down. It is time for us to return to a normal way of living, away from the state of emergency that we have had to endure for the past few years.

Yours sincerely,
Louise Fairhurst
