Subject: Extension to the Emergency Bill.
Date: Wednesday, 2 March 2022 6:47:08 PM

We DO NOT want an Extension to the Emergency Bill to be passed in parliament. This Emergency Status has gone on for long enough.

Our lives have been totally turned upside down. Depression has set in due to the masks and mandates and lack of freedoms and now ill health.

The whole world is getting back to normal, which has caused us to believe that we will soon be free of these mandates.

We are hearing of many countries cancelling their mandates and were becoming cheered that we would soon also be given our freedoms.

Now we hear that Australian politicians think otherwise to the rest of the world, They won't be getting elected if this Extension passes and no amount of coercion will change our minds.

Robin & Robert Paxton
