Subject: No extension of Emergency Bill in Qld
Date: Wednesday, 2 March 2022 6:50:46 PM

I, do not want an Extension to the Emergency Bill (until 31st October 2022).

The extension of powers is based on covid deaths in Queensland and covid numbers. The ABS data is now showing the exaggeration of such data. The death rate for covid is less than the death rate for other diseases including the common flu.

The mandates from this so called emergency have not done what they said. They should never have been made. What they have done is cause problems such as isolation, closing small businesses, unnecessary unemployment for education, health, fire & rescue and hospitality workers, as well as divisions of friends, colleagues and families.

Masks and the covid drugs have now proven themselves to not stop the spreading or infection of the virus.

I want to see the resources being wasted on this, re-focused to protecting, caring and uniting us all so that our lives can be normal and sane.

Thank-you
