Subject: Stop Extension to the Emergency Bill
Date: Wednesday, 2 March 2022 7:25:46 PM

To whom it may concern

We are writing to state that we DO NOT want an extension to the emergency bill to October 2022. Our family and extended family have been seriously adversely affected by mandates and restrictions under the existing bill - some losing their jobs, one teacher about to lose her job when her medical exemption finishes - one suffering serious anxiety and panic attacks due to the threat of losing her job.

The rest of the world has recognised the pandemic is over. The Uk, Ireland, Denmark ... the list goes on - have dropped mandates and restrictions. Australia is looking foolish on the world stage persisting in these ridiculous mandates - and pushing a vaccine that even the developers have said doesn't work on Omicron. It is like giving last year's flu vaccine for this year - it doesn't work. The over reach that this government has used in the name of protecting us from a virus that is now known to be less dangerous than influenza - according to the former federal Deputy Chief Health Officer - Dr Nick Coatsworth. He has stated there will be no more boosters for him! There is no justification for the Queensland Government to extend this bill.

Yours sincerely,
Rod and Beth Oates
