It has come to my attention that the Queensland Premier is applying for an extension of the expiring emergency powers. This must not be allowed to happen. She has already decimated lives, businesses and economies under false pretences and it has been catastrophic. To extend these powers is an outright corruption of power to which you will be a party if you support it.

There is no emergency and everyone can see that, so you cannot hide behind any so-called law. If there ever was a pandemic, it is well and truly over. Studies show that the variants are mild colds which pose no threat whatsoever to the general population. Case studies prove that authoritarian government controls do not translate to better outcomes. Safe and effective treatments have been demonised and doctors obligations to their patients have been severely compromised. The injections have proven to be ineffective and have actually put people in harms way, as the majority of cases in hospital are double and triple injected. The records of harm and death from this injection grow every day as evidenced on the TGA website and other recording sites. The extension of the state of emergency must be unequivocally and permanently rejected.
