**Subject:** STOP the newly tabled Extension of Emergency Bill 2022  
**Date:** Wednesday, 2 March 2022 8:01:32 PM

---

Dear Sir/Madam,

I stand with so many that are alarmed at the news of the discussion being had regarding extension (once again) of the Emergency Powers Bill which MUST end on 30th April 2022. The previous extension was tabled in parliament on June 16, 2021 by the Minister for Health, Yvette D'Ath, to have that extension extended until April 2022.

As a sovereign woman living in Queensland, I am fully opposed to this bill, and I strongly urge all Ministers of all Political Parties and Persuasion in our Queensland Parliament to finally bring a halt to any further extension of these unlawful measures. Come April 2022 it will be over 2 years and the People of Queensland say Enough is Enough. There are so many more pressing issues at hand - depression, deaths, disunity, education standards declining, floods, separation of loved ones, increase in food and fuel prices etc, and the list could go on and on.

The Public Health and Other Legislation (Further Extension of Expiring Provisions) Amendment Bill 2021 extended a range of emergency measures that increased the government's overreaching power over people's lives, including the extraordinary powers of the Chief Health Officer, Dr Jeannette Young and New Chief Health Officer Dr John Gerrard.

So far, the Health Minister's powers (whether justified or not) under the PHO have contributed to loss of small business, (each business owner has a debt to pay, and possibly bankrupt or lost family homes, and have understandable mental health stresses), the QR code system is everywhere without agreement or debate (many people object to this forcing of new and permanent tech, and having to surrender privacy), forcing of mask wearing (deprivation of oxygen and increased CO2 levels, make healthy people sicker, children's ability to learn has decreased), closure of church services (essential for mental health), no singing (which is excellent for mental and physical health). Debate or second opinion on these subjects has been silenced and censored.

Queenslanders want an End to Emergency Powers NOW!

Yours sincerely,

Donna Barry -
