Committee secretary

Dear committee secretary

Re: public health and other legislation (extension of expiring provisions) amendment Bill 2022

I appose this extension due to the evidence that we can see from the drop in hospital inpatients, that we have passed any threat that may have been around in recent years from COVID19.

I believe, as you can see from other countries, that this is now a disease that we will be required to live with going forward as we do now with influenza and other diseases

Yours sincerely

Scott Jauncey
