To whom it may concern,

Kindly note my absolute objection to the Qld Government's proposal to EXTEND the Emergency Bill until 31st October 2022.

My objections as a Qld citizen are based on the fact that data on the Omicron variant SHOW that this is no longer a terrifying disease which merits previous actions like lockdowns OR segregation of our society so that the 'unvaccinated' are prevented from access to facilities that the 'vaccinated' can attend.. HOUSE ridiculous is that segregation now when percentages of vaccinated are SO high & the vaccinated can transmit Covid 19's Omicron variant just as the unvaccinated can.

WHAT justification is there for extending the Qld government's emergency powers when there is NO longer an emergency? This government will lose all credibility if this goes through parliament.

My name is (Mrs)Robin Halliday
