Committee Secretary
Community Support and Services Committee
Parliament House
George Street
Brisbane Qld 4000

Dear Committee Secretary,

Regarding -

PUBLIC HEALTH AND OTHER LEGISLATION (EXTENSION OF EXPIRING PROVISIONS)
AMENDMENT BILL 2022

I do NOT support the above amendment bill.

This bill and the previous similar bills, do not comply with numerous laws, regulations and policies, as detailed below, including but limited to those listed,

These laws, regulations and policies detailed below, protect the right of informed consent in receiving a vaccine, or **any** medical procedure, wearing a mask, staying at home, avoiding contact with other human beings, including family, and using the stipulated QR code.

- The *Commonwealth Constitution* s.51(xxiiiA) which prohibits civil conscription into medical and dental services.
- The *Biosecurity Act 2015* (Cth) s.95 prohibits the use of force for vaccination.
- The *Biosecurity Act 2015* (Cth) s.92 prohibits vaccination or treatment without an individual Biosecurity Control Order with stringent requirements.
- Article 6 of the UNESCO statement on Bioethics and Human Rights, Section 1, states "Any preventative diagnostic and therapeutic medical intervention is only to be carried out with the prior free and informed consent of the person concerned, based on adequate information."

- The consent should, where appropriate, be express and may be withdrawn by the person concerned at any time and for any reason, without disadvantage and without prejudice”.
- Nuremberg Code, Article 1, states “The voluntary consent of the human subject is absolutely essential”.
- The Siracusa Principles, adopted by the UN Economic and Social Council in 1984 provide authoritative guidance on government responses that restrict human rights for reasons of public health or national emergency. These Principles state that measures taken to protect the population that limit people’s rights and freedoms **must be lawful, necessary, and proportionate**.
- Section 83.4 of the *Criminal Code Act 1995* (Cth), which relates to interfering with political liberty states “Any person who, by violence or by threats or intimidation of any kind, hinders or interferes with the free exercise or performance, by any other person of any political right or duty shall be guilty of an offence”.
- Human Rights Act 2019

As well as the above laws, regulations and policies,

- All the current Covid vaccines are still in their experimental stage.
- Wearing masks for long periods has been proven to be unhealthy.
- Isolation has also been proven to be psychologically unhealthy.

Thank you for considering my submission

Yours truly,

JuliaAVincent
