Submission from
Shanan Rose

I submit the follow in regards to - Public Health and Other Legislation (Extension of Expiring Provisions) Amendment Bill 2022

I'm opposed to the extension of expiring provisions.

The State of Emergency has ceased, our country is now open internationally, the extension of State of Emergency powers is not required.

The people have done all in our power to prevent the spread of COVID-19. The time has come to return to normal life.

The extension of the expiring provisions will not provide any additional reduction to the spread of COVID-19.

This extension is unnecessary and does not serve the people of QLD.

END SUBMISSION
