Subject: Extension to the Emergency Bill - OPPOSITION
Date: Thursday, 3 March 2022 9:15:15 AM

Good morning,

The is my submission that I Rachael Bond, DO NOT WANT an Extension to the Emergency Bill that is proposed through to the 31st October, 2022.

There has been more than enough substantial evidence provided there has been an exaggeration of the Covid data and too much damage has been done with your decision to segregate society based on a person's personal medical choice. With the evidence of Covid injection injuries that have occurred, it is time to get rid of the vaccine mandates to save further damage and death occurring. STOP THE MEDICAL GENOCIDE NOW!

I personally take care of my health on my own and have NEVER heard any Chief Health Officers or any other bureaucrats for that matter in the life get in front of the camera and call a press conference to advise its people that they should not smoke, drink alcohol, get 30 minutes of exercise a day, reduce stress and sleep more...NEVER! Instead, it was get jabbed and wear a bacteria filled face nappy all day and avoid social interaction. To know that our very own government withheld proven medical treatments from us is simply disgusting. If anything, this Covid event has only confirmed what I suspected and mistrusted about our government.

Get rid of all mandates, stay out of our lives, and stop the tyranny.

Rachael Bond
