**Subject:** Cease emergency powers in QLD now  
**Date:** Thursday, 3 March 2022 10:20:14 AM

---

Dear Sir/ Madame

I Rachael May Thompson of [REDACTED] would like to submit my rejection and absolute objection to the continuation of Emergency powers in QLD.

New data just released by the Australian Bureau of Stastics and data from abroad suggest that the current pandemic has past its most dangerous stage and that the use of the current vaccination, isolation, mask wearing and QR check in contact tracing has been ineffective and prolonged in most cases community recovery. QLD for the past 2 years has used Emergency act to enforce these unproven and now proven innefctive control solutions. This has resulted in descrimination of unvaccinated people, the invasion of the personal medical records of QLD, the deprivation of peoples right to medical choices, in many cases the deprivation of access to service's and even health services, the destruction of a large number of small businesses and in turn their dependents and wider community and the erosion of the mental well being of the wider community in QLD as a whole. I as a voter and tax payer in QLD vehemently say NO MORE EMERGENCY POWERS. If my elected QLD government votes this in, I will use my next vote to vote you out.

Sincerely

Rachael Thompson
