Committee Secretary,  
Community Support Services, Queensland.

I was going to write a long letter protesting about any extension to the Emergency powers of the Queensland Government, but since the words keep sliding off the screen of my computer, that would be difficult.

Instead I wish to simply protest in the strongest possible terms of the continuation of any such powers that have ruined the lives of so many people, not only in your state, but every state in Australia.

You will never be forgiven for your ignorance and foolishness of believing the lies of the WEF and the NWO and the destruction of your own state and country, and the lives of your people.

Whether we survive this is debatable, but I for one have not been vexinated, only worn a mask once or twice and have been unable to have access to my family members in Queensland, since I live in Northern New South Wales.

We do not believe the lies and you will see from the article below of the truth of the matter, should you be interested in expanding your minds to know the truth of this so called Vexxine Emergency, which is based on nothing but lies and the agenda to reduce the population of the world, as spoken by the Eugenicists in charge of this diabolical plan to link us all up with some technological nightmare world. Cease and Desist now, for all our sakes, including your own.
