Dear Sir or Madam,

I write today to make clear that the current mandates and laws surrounding the SOE in Queensland for Covid 19 has well passed its expiry date.

The Covid SOE laws have done nothing but bring about the demise of many small businesses across Queensland and have resulted in many Queensland workers being rendered unable to work in their chosen skilled area.

The fact that the government and its bodies highly over exaggerated the virus and its effects on the health of people is one thing you should all be very ashamed of. But that you have put soo many Queenslanders into poor financial situations for no reason is just disturbing.

Now we see an actual event put on by mother nature and her power. All you have done is waste so much of our nation's funds on worthless medicines and useless restrictions destroying our economy, piling anxiety onto our people who now actually have horror to live through while already being near the end of their emotional tether.

I have never seen such misuse of power by any political persons in all of my life outside of what Putin is doing right now.

NO MORE STATE OF EMERGENCY RELATING TO COVID, YOU HAVE BIGGER THINGS TO CONCERN YOURSELF WITH RIGHT NOW. Like the actual state of emergency - The Floods - The coming war.
