To Whom it may concern,

Stop the extension of the Emergency Bill

Mandates must stop now

These mandates have cause divisions and segregation amongst family and friends. People that have taken their lives and others that now are deeply depressed is not the way of Australian people. We want our freedom back and to be able to be with our family and friends.

Also people have the right to proper treatment from doctors, hospitals and clinics. I find it appalling that people have had their surgeries canceled. No beauracrat or politician has the right to cancel anyones surgery or treatment of any kind, especially for serious condition. No one has the right to stop anyones treatment.

The death rate for Covid is less than 0.1%.

Total of infected population is so under no definition is it a pandemic. Qld health's own advice is stay home and treat with Panadol.

Stop the mandates.

I love my country, this is a beautiful country, I am proud to be an Australian. I walk with love and hope in my heart and hope that we can get back on track to help the people of this country and live in freedom and unity.

Kindest regards
