**Subject:** I do not support this bill  
**Date:** Thursday, 3 March 2022 11:08:25 AM

---

Dear sir/ madam,

I am writing to state that I do not agree with this bill and believe that no more temporary powers should be granted. We are not in a state of emergency any more. The abs recent Covid death data clearly shows the farce the whole Covid facade has been. <https://www.abs.gov.au/articles/covid-19-mortality-australia> . It has been no worse than a cold or flu for the majority of people. The numbers are dropping and for the sake of the qld economy, life should return to complete normal. The unnecessary mandating of unvaccinated members of the community is disgusting, as are the draconian laws that are in democratic and anti choice. No one should be forced to have an experimental medical treatment forced on them or lose their jobs. Recent data reluctantly released from Pfizer ( they couldn't keep it locked away for 75 years) show the terrible adverse affects vaccines are having. This will go back to the governments for forcing it on workers. I look forward to seeing the next election results as this has been something the majority of workers in Australia also resent. They have hated being mandated to keep their jobs. It is time to start living normal life again: no emergency powers, no mandates, no vaccine passports, no segregation. The longer it continues the worse it will be for governments in power. There are criminal things being done. People vote with their feet.
