Hello,

My name is Danielle Kaurila, address is [REDACTED]
[REDACTED]

I'm writing to discuss my concerns regarding the extension of the pandemic and emergency! Covid-19 has clearly shown it is not a deadly virus, therefore it is detrimental to our society to continue these mandates and rules!

It's time to stop and let Australians return to normal, it is essential for our children's future that this stop now!

Stop the pandemic now, it is not a pandemic anymore.

Regards,

Danielle Kaurila
