Committee Secretary  
Community Support and Services Committee  
Parliament House  
George Street  
Brisbane QLD 400

Dear Committee Secretary,

I want to make it very clear that I do support an extension to the Emergency Bill until 31<sup>st</sup> October 2022.

There are a number of reason that the emergency bill shouldn't be extended, including but not limited to the following:

- ABS Status released 15/2/2022 showing that only 83 deaths occurred from COVID which didn't have an link to another cause of death.  
<https://www.abs.gov.au/articles/covid-19-mortality-australia>
- TGA Adverse Events released 24/2/2022 showing thousands and thousands of reports of reactions from the experimental vaccination that has been mandated across a number of sectors from the Queensland Government – this is putting people lives at risk when there isn't enough safety data.

Please listen to the people of Queensland and reject this public health amendment bill immediately.

Regards,  
Melanie Kay
