End the Emergency Bill!!

- The vaccines are proving to be useless against the virus.
- We have reached almost 91% double dosed and still the virus keeps spreading.
- We need to get on with life and treat Covid-19 like any other Flu
- There is no need to further the Emergency Bill as there is no Emergency.
- There is a 99.85% chance of survival from Covid, this is not a deadly virus and the extension of the bill is not justifiable.
- The Governments use of Emergency Powers is unlawful in itself and against all humanity.
- The Segregation and discrimination used whilst these Emergency Powers are in place is unforgivable and will not be forgotten.
- The % increase in adverse reactions to these vaccinations and deaths are unreasonable and undeniable and they must be stopped, and one look at the Australian TGA DAEN Covid Vax Adverse website reports shows this.

I urge you to consider carefully the ramifications on the State of Queensland if these Emergency Powers are extended.
