Subject: Emergency Bill
Date: Thursday, 3 March 2022 12:26:00 PM

To Whom It May Concern:

My name is Andrea Martin and my address is [REDACTED]
[REDACTED]

Please be advised of my position AGAINST the extension of the current Emergency Bill. To be utterly clear please know that: I DO NOT WANT AN EXTENSION TO THE EMERGENCY BILL. PLEASE CANCEL IMMEDIATELY!

The reason for my stand AGAINST this bill is to allow me and my fellow Australians to be able to resume work without the vaccine mandates or mandates of any kind. Please STOP the segregation in our communities! You are hurting families! You are hurting my family and creating division among communities.

I am unable to work due to the “no jab no job mandates, simply because I chose NOT to have a trial drug in my body. What happened to freedom of choice? I am not an antivaxxer, I have all my childhood vaccinations, I believe people should have a choice what they put in their bodies. What did our Grandfathers fight for if not for our freedom to live in a country free from oppression and tyrannical dictators?

How can you continue to mandate a vaccine to Covid 19 which is responsible for less than 1% of total deaths in Australia over last 2 years? and as reported by the Australian Bureau of Statistics showing as 38th down the list of leading cause of death! Why do you hide the data on vaccine injuries? Why do you enforce gagging orders that prevent nurses and Doctors from speaking the truth? Why do you create fear among the people through main stream media? The data and figures do not add up to this so called pandemic!

The “Australian” newspaper dated 14.02.2022 reported that NINE leading scientists from universities including Oxford, Harvard, John Hopkins, **have urged mandates be dumped in light of evidence they were “scientifically questionable, ethically problematic and misguided”**.

Denying individuals education, livelihoods, medical care or a social life unless they are vaccinated is against the Constitution and so many bioethical principles.

PLEASE STOP! Follow the UK and other countries who are now putting an end to all mandates. Let Australians live their lives and work and feed their families.

To continue with an Emergency Bill until October 2022 is completely unwarranted, not needed and down right WRONG!

STOP this MADNESS. GIVE US OUR LIFE AND FREEDOM BACK!
DROP THE EMERGENCY BILL!
PLEASE!!

Yours sincerely,

Andrea Martin
